(1) Chassis weight calculated with gas engine (5.4L in E-350 & 6.8L in E-450). Optional engines and other chassis may effect chassis weight.

(2) Body weight calculated with standard shelving and bumper. Body options will increase body weight.

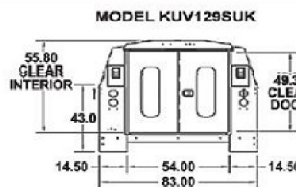

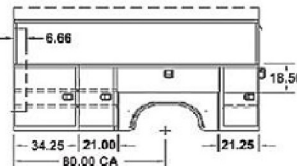

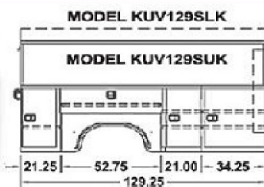

(3) Final payload calculation subject to chassis and body options.

* "S" model denotes single rear wheel with 14.5" deep compartments.

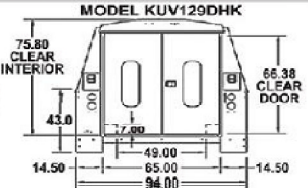

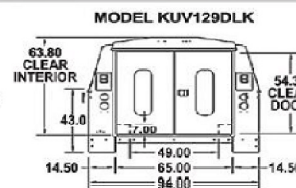

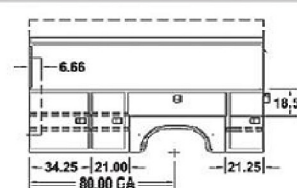

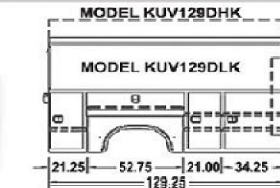

** "D" model denotes dual rear wheel with 14.5" deep compartments.

*** "D20" model denotes dual rear wheel with 20" deep compartments.
