MARATHON ELIMINATOR(RUGBY) LP STEEL DUMP

SPECIFICATIONS

OPTIONS

The Eliminator LP Dump Body, by Rugby Manufacturing, is the industry leader in Class 3-5. Featuring a sleek, streamlined style and designed for maximum durability, these units are available in 9' to 12' lengths with 12 and 17" side height options. Units come equipped with a sloped 1/4 cab shield that has a slotted viewing window. The patented EZ-LATCH™ system is also included for easy tailgate operation and maximum safety.

• Cab Shield Posts

Full depth front pillars include easily locating cut-out for fast installation of cab shield insert. Makes all Eliminator LP cab shields interchangeable, helping to keep inventory low.

- **Fold down sides** feature a centrally located quick release lever that extends and retracts 3/4" pins at each end using a solid linkage member. Weight-saving aluminum fold down sides are optional on steel bodies.
- Rugby's patented and **industry leading EZ-LATCH™** (located on each side of body) allows for easy body access. The latch system is designed for quick opening and slam lock operation with a cam action to draw-in upper tailgate pins.
- 10 ga construction throughout on bodies with rigid sides, bodies with fold down sides have 12 ga sides
- Fully boxed and tapered dirt-shedding top rail
- Double-walled rigid sides with 6" vertical braces
- Single-walled fold down sides with 6" vertical braces
- Pockets for 6" side boards increase load capacity
- Side design includes fully boxed 45° dirt shedding top rail and a 50° sloped bottom rail for a completely self-cleaning profile
- Front body's seamless one-piece design features triple bend top rails for long-term durability
- Stacked understructure consisting of 5" structural long members overlaid with 3" structural I-beam crossmembers spaced 16" (12" optional) apart
- 1/4 cab shield with viewing window
- Full height corner posts with rear surface sloped 6° aids in tailgate closing
- Tailgate double walled panel design fabricated from 10 ga steel featuring fully boxed dirt-shedding top and bottom rails. Two vertical braces to provide additional strength and rigidity
- Rugby products' lighting locations have been designed to assist the installer in meeting FMVSS / CMVSS 108 requirements.

2-3 & 3-4 Yard Rigid & Fold Down Side Carbon Steel:

- Cabshields (1/4, 1/2, 3/4, Full) Standard and Tall
- 7 gauge floor
